What an inspired combination!

A mix of shrubs (yes, you'll have to remove them eventually and plant in the ground) along with a ground cover wintergreen and sparkling white hellebores, this combo will look great right through the winter in zones 7 - 9. Colder zones will need to substitute something a bit more hardy for nandina (we suggest a holly such as [Nordic™ Inkberry Holly](#), which looks somewhat the same and stays somewhat small).

Who needs lots of flowers, right?

See the entire project at the [Frustrated Gardener](#).

Ultraviolet Rules

Ultraviolet, huh? This special and unusual shade of purple that's heavy on blue undertones with a cosmic, most-perfect-purple-sunset-ever kind of appeal, is Pantone's (the color company) color of the year. ...

Wintery Cool Combo for Warmer Zones

Here's a planter that will look great year round with just a swap-in of colorful annuals as the seasons progress. Now, in winter, the muted hues of antique pansies are ...

Foliage Keeps It Interesting!

It's true the warmer zones are now enjoying the first camellias as well as the last roses, but we still count on containers to keep the garden looking fresh and ...
