OUR HISTORY

When Swedish industrialist Curt Abrahamson founded Mercuri International in the 1960s, he was motivated by a strong drive to empower organisations in making their strategy happen. The company started out of an association with Heinz Goldman of the Goldman Institute. The success of Mercuri International's result focused methods turned this initially Scandinavian sales training company into the global player it is today.

Mercuri International's success is a direct result of the work of our handpicked experts alongside with strong values and mission.

Our achievements go side-by-side with those made by our clients. That is what makes us a leading player globally and locally.

Mercuri has been owned by Bure s.a., a Swedish investment company, since 1997. Through organic growth and acquisitions Mercuri Group has established itself as the leading Sales Consulting and Result Improvement company in the world.
